AI AGENT · AUTOMATION SYSTEM

SuDu AI Agent

Automation for orders, purchasing & payments

SuDu AI · AI ERP operating system

WHY SUDU AI AGENT

What the AI Agent takes off your hands

BEFORE / AFTER

Sales admin

- Retyping WhatsApp orders
- → AI drafts the SO

BEFORE / AFTER

Purchasing

- Keying supplier invoices
- → AI reads the file

BEFORE / AFTER

Accounts

- Matching slips, chasing payment
- → AI matches and reminds

BEFORE / AFTER

Management

- Waiting for reports
- → Reports arrive on schedule

WHERE IT FITS

One AI Agent, two channels

CHANNEL 1

AI Chat

- Inside the SuDu web and mobile app
- For your staff: orders, questions, reports

CHANNEL 2

WhatsApp Agent

- Your own WhatsApp number, linked by QR
- Customers or salesmen order directly

FOUNDATION

Runs on WMS + SQL

- Uses your items, prices and stock
- Posts documents to SQL Accounting

Controlled automation: the AI follows your business rules, permissions and approval tiers. Anything unclear is flagged for a person.

HOW IT WORKS

From any message to a posted document

SALES ORDER FLOW

Order in
WhatsApp or AI app

→

Any format
text, voice, PDF, Excel, photo

→

Match & check
customer, item, UOM, price

→

Document
Quotation · SO · Invoice

→

Send
WhatsApp or email

→

Post to SQL
no key-in

⚠

Unclear?

- Unknown item or price outside the rules is flagged for a person to decide

Then WMS takes over

- The Sales Order goes to picking, packing and delivery as usual

SALES ORDERING

Orders in WhatsApp, documents out

Inputs it reads

- Text and voice notes
- PDF and Excel POs
- Photo of a handwritten order

Documents it makes

- Quotation, Sales Order, Sales Invoice
- Sent by WhatsApp or email

WhatsApp · Yum Cha Sin Sdn Bhd

Hi, 200 pcs CHK-WHL-1KG please.
Deliver Thursday.

Draft **SO-1043**: Yum Cha Sin · CHK-WHL-1KG × 200 @ RM11.50 = **RM2,300.00**, Thursday delivery. Confirm?

Confirm

SO-1043 issued and posted to SQL. PDF attached ✅

PURCHASING & PAYMENTS

Supplier files and payment slips, read for you

PROCUREMENT

Purchase need
or reorder PR

→

AI creates PO
approvals apply

→

Issue to supplier
WhatsApp / email

→

Supplier invoice
PDF, Excel, image

→

AI Purchase Invoice
matched to PO & GRN

→

Post to SQL

PAYMENT RECEIPT

Payment slip
PDF or image

→

AI reads
payer, amount, ref

→

Match invoices
outstanding

→

Customer payment
knock-off

→

Post to SQL
AR updates

Differences against the PO or GRN, and any amount not matched to an invoice, stay **visible for a person to review**.

REMINDERS & REPORTS

Chase payment and report, on schedule

COLLECT

Payment reminder

- SOA per customer from AR
- Triggers: outstanding · over credit limit · over credit term
- Sent by WhatsApp or email

REPORT

Scheduled reports

- Procurement → costing
- Sales → revenue
- Inventory → balance & value
- Finance → AR, AP, cash flow, P&L, ledger

ANALYSE

Ask in plain words

- “Stock of CHK-WHL-1KG?”
- “Top 10 items this month?”
- “Who is over 90 days?”

YOUR FLOW, YOUR SETTINGS

Set the AI Agent to your rules

Setting	Choose one (or more)
Channels	AI Chat · WhatsApp Agent · Both
Functions	Sales ordering · Procurement · Payment receipt · Reminders · Reports
Who confirms	Customer · Salesman · Sales admin · Approval tiers for price / qty
Matching rules	Customer & item aliases · Price book or last price · Credit & stock checks
Output	Quotation · SO · Invoice · Send back by WhatsApp / email · Post to SQL
Access & usage	AI permission per role · Monthly task package

INTEGRATION

Works with WMS and SQL Accounting

AI Sales Order

- → WMS picking, packing, DO
- → Invoice posted to SQL

AI Purchase Order

- → WMS goods receipt (GRN)
- → Purchase Invoice to SQL

AI payment

- → Customer payment to SQL
- → Next SOA is up to date

AI answers

- Reads live WMS stock
- Reads AR / AP from SQL

GETTING STARTED

Live in six steps

1

Connect WhatsApp

Link your number by QR

2

Sync masters

Customers, items, prices

3

Set rules

Aliases, checks, approvals

4

Collect samples

Real orders, slips, invoices

5

Test & tune

Run samples, fix matches

6

Go live

Track tasks each month

SUDU AI AGENT

Talk to your ERP. Let AI handle the work.

Orders, purchasing, payments, reminders and reports, inside your rules and posted to SQL Accounting.

Next: send us 20 real orders for a live test
